

## IUVSTA-Elsevier STUDENT AWARD WINNERS

Congratulations to the student winners selected by the ad hoc ECOSS-33 Grant Committee on the basis of the application submitted directly to the chair of the conference.

- **Mr CAREY, J Spencer** University of Washington, Seattle, USA (*oral presentation*)  
*"Energetics of adsorbed molecules and molecular fragments on Ni(111) by microcalorimetry"*
- **Mr ITO, Suguru** University of Tokyo, Tokyo, Japan (*oral presentation*)  
*"Solving mysteries in pure bismuth by quantum confinement"*
- **Mr MOHRHUSEN, Lars** Carl von Ossietzky University Oldenburg, Germany (*poster*)  
*"Electrostatic Shielding versus Sterical Ligand Stabilization: Tunable Nanocrystal Stabilization Mechanisms"*
- **Mr SAHA, Prithwidip** Indian Institute of Technology, Kanpur, India (*oral presentation*)  
*"Ultrathin film polymorphs of ferrocene derivatives assisted by functional groups and solvents"*
- **Miss VAJDLE, Olga** University of Novi Sad, Novi Sad, Serbia (*poster*)  
*"Comparison of multiwalled carbon nanotubes modified with silver and gold particles as surface modifiers of carbon"*
